

React native assignment - Note taking app

Date - 15th January 2021

Build a simple note taking app with following set of features

1. Design the UI as per the wireframe below. (Good UI can get some extra points)

2. There should be 3 screens - Login, List and Add Note screens, respectively.

3. Persist username in asyncstorage and create a flow similar to which we did during the session.

4. User should be able to add notes and delete them.

5. Persist notes as well.

Submission deadline - 21st January 2021 (Thursday)
